### PRICE LIST

KODAK LIMITED • KODAK HOUSE • KINGSWAY • LONDON • W.C.2

# REPAIR SERVICE

The accompanying Price List of Camera Repairs has been compiled to enable dealers to quote for repairs at the time of receiving Cameras. This will, in most cases, obviate correspondence and save delay while waiting for quotations.

To reduce the time taken for repairs, we have augmented our Provincial Repair Services at Glasgow, Dublin and Birmingham, and have established a new Repair Service at our Liverpool Wholesale Branch, all of which are staffed by experienced mechanics. In addition, the country has been divided up into five Territories, each served by its own central Repair Depot. (See Page 10.)

On receipt of Cameras, Dealers are requested to examine carefully the apparatus and advise the customer of the class of repair necessary, and price for same.

Customers are requested to send orders for Repairs direct to the Depot serving their Territory, addressed to the Service Department. The apparatus should be securely packed, and sent carriage paid.

In the event of a repair necessitating work in addition to that ordered, an estimate will be submitted before the work is proceeded with. Replacement, repolishing or refitting of lenses are subject to special quotation.

Repairs to Ciné-“Kodaks” and Kodascopes are undertaken by the Provincial Repair Depots, with the exception

of certain special repairs which it may be necessary to send to the Service Department, Kodak Limited, Wealdstone, Middlesex.

Service facilities for Professional and Finisher Apparatus are available at all Repair Depots.

Arrangements can be made with the Repair Depots concerned, to carry out on customers' own premises, Repairs to Developing and Printing or other apparatus supplied by us—especially to heavy and bulky items. For this service a charge is made for Labour, Material and Travelling Expenses.

We do not undertake the repair of other manufacturers' cameras.

## EXPLANATION OF REPAIRS.

No. 1—Body Repair :

Covers all repairs to a camera, excluding repairs to shutter and bellows.

No. 4—Complete overhaul :

Includes all necessary repairs to body, shutter and fitting and supplying new bellows where necessary.

Numbers 2, 3 and 5 to 10 are self-explanatory.

## WARNING.

We frequently have to rectify trouble caused by shutters having been oiled. In no circumstances should this be done, as oiling shutters tends to reduce efficiency.

*All repair work is subject to such of our general Conditions as are applicable thereto, and the following extracts from our Conditions of Sale should be specially noted :—*

*“The retail price to be charged for repairs by Kodak Ltd. to apparatus shall be the gross amount of the invoice to the dealer plus the cost to the dealer of carriage and postage.*

*No liability for consequential damage of any description in respect of goods sold, repaired or processed will be accepted by Kodak Ltd.”*
